

Life's Good when you get healthy surprises.

 **India's No.1**
REFRIGERATOR

PRESENTING HEALTH GUARD™

Eliminates 99.99%# bacteria. Purifies air. Keeps food healthy.

Quick facts!

Exclusive Fan and Air Suction Channel for Filtration, HEALTH GUARD™ keeps purifying air every hour.

HEALTH GUARD™ consists of 3 filters + 1 deodorizer (Total 4 steps). Each filter removes Dust, Fungi Spore, Bacteria and Odour respectively.

A healthy life for you and your family is what you want. The air you breathe should be pure and the water you consume has to be fresh. Then why compromise on food? Is it stored in a healthy and hygienic way? Is it always naturally fresh?

LG presents HEALTH GUARD™. It preserves the freshness and nutritional value of food by keeping it in a hygienic condition so you can enjoy it the way nature intended. Its 4-Step Air Purifying System actively purifies the interior and sterilises up to 99.99%# of bacteria. This latest innovation from LG ensures that you and your family enjoy a healthy life.

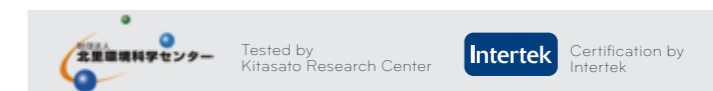

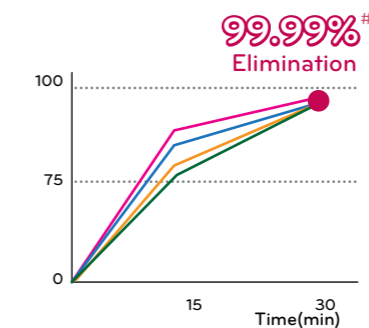

HOW DOES HEALTH GUARD™ 4-STEP AIR PURIFYING SYSTEM WORK?

HOW DOES HEALTH GUARD™ PROTECT YOU FROM 4 HARMFUL BACTERIA?

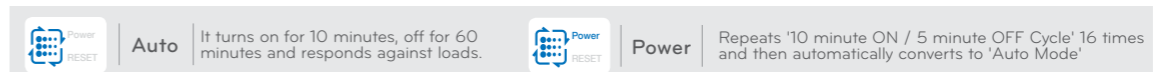

HEALTH GUARD™ is coated with LG patent material[≈], which is certified to eliminate 4 types of bacteria commonly found in a refrigerator.

-  **Staphylococcus aureus**
Causes food poisoning and sepsis
-  **Listeria monocygenes**
Direct cause for food poisoning (Doesn't die easily even in the refrigerator)
-  **Salmonella typhimurium**
Reason for food poisoning and typhoid bacillus
-  **Escherichia coli**
Causes diarrhea and colitis

GET ONE-TOUCH AIR PURIFICATION WITH HEALTH GUARD™

You can control the freshness inside the refrigerator at the touch of a button. It removes bad air from the refrigerator and creates a fresh natural environment inside, ideal for storing food.

#99.99%: Bacteria tested by Intertek, 2010 & Kitasato, 2011, ASTM E2149-10 test protocol. Eliminates 4 most common known disease spreading bacteria in the world.

[≈]CT1789: Lactic Acid Ferment Extract

THE NEW RANGE LOADED WITH FEATURES.

Stylish design meets smart technology. Presenting the new range of LG Frost Free Refrigerators - the next level of refrigerators. LG's innovation, HEALTH GUARD™ makes your life healthy and happy. The Slim LED Panel (External Micom) and the Water Dispenser on the door not only adds to your lifestyle but also makes your life convenient. So bring home the new LG Refrigerator and make your world healthy and happy.

ALL NEW FEATURES DESIGNED KEEPING YOU IN MIND.

SALAD BAR

Storing salad and cut fruits was never so easy. They stay as fresh as they were at the time of cutting. What's more, you can also keep your soft vegetables safely in the specially designed boxes. So get ready to toss up a salad!

SPICE BOX

Keep your exotic spices, condiments and nuts in an absolutely moisture-free condition with these special air tight containers. Now it's very easy to preserve their natural flavour and richness.

SLIM WATER DISPENSER

Get cold water without opening the refrigerator door. The Soft Touch Control Pad outside the refrigerator allows you easy access to chilled water at the touch of a single button. What's more? The water is stored in a detachable water tank.

LED LIGHT

Brighter, Durable, Energy Efficient and Cooler. And you contribute to a greener planet for years. It consumes upto 91%** less power than conventional lights and is 26** times more durable.

**Under test conducted at LG in house laboratory

STYLISH TACTILE LED DISPLAY (EXTERNAL MICOM)

With this slim and stylish panel, you can control your refrigerator functions from the outside. Control HEALTH GUARD™, Refrigerator Temperature and Fast Freezing at the touch of a button. To prevent children from changing your settings, it has Child Lock too.

ECO FRIENDLY REFRIGERANT

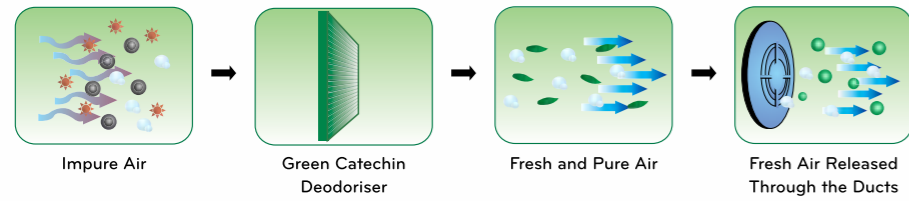

For the first time, the latest and eco-friendly refrigerant R-600A is being used in LG Frost Free Refrigerators. It has zero Ozone Depletion potential, and thus helps in the fight against Global Warming.

*99.99%: Bacteria tested by Intertek, 2010 & Kitasato, 2011, ASTM E2149-10 test protocol. Eliminates 4 most common known disease spreading bacteria in the world.

Green Ion Door Cooling

Longer Lasting Freshness.

LG's unique Green Ion Door Cooling technology takes LG Refrigerators to the next unmatched level in cooling technology. Green Ions fight bacteria, eliminate bad odour and slow the decaying of food. Door Cooling™ maintains uniform temperature through various ducts present throughout the refrigerator. So, you get pure and fresh air, which preserves nutrition and keeps your food fresh for long.

Ion Effect

Ions are generated by Tourmaline applied to the inside of the refrigerator. Tourmaline is a mineral that generates ions by electrolysing water molecules.

Green Catechin

Catechin is directly extracted from green tea leaf and is a nontoxic natural antibiotic substance which is not harmful to the human body. Particularly, Catechin is known to slow the process of ageing and is highly effective in restraining the spoiling of food.

Step 1	Impure air flows through the ducts.
Step 2	Passes through the Green Catechin Deodoriser, which absorbs bad odour and eliminates micro-bacteria.
Step 3	Fresh and pure air comes out from the ducts.
Step 4	The fresh air spreads freshness through the ducts present at the sides of the refrigerator and slows down the ageing process of vegetables, hence enhancing freshness 2.5 times** more.

DURA CHILL

LONGER LASTING COOLING. EVEN DURING POWER CUTS.

Presenting **Dura Chill** technology in LG Frost Free Refrigerators.

LG Dura Chill maintains optimum cooling inside the refrigerator up to 90 minutes**, even during power cuts. Developed with a special gel material, it retains cooling and prevents spoiling of food items. Also, its unique placement on the freezer top provides uniform cooling with a 'shower' effect.

DOOR COOLING TECHNOLOGY™

The only brand that gives you cooling from the doors too. It maintains even temperature and health, and gives chilled bottled water, faster.

VITA LIGHT

Replicates the process of photosynthesis to preserve the nutrients and moisture of food.

OPTIFRESH

Acts as the perfect airtight device to maintain an optimum temperature. Maintains optimal moisture levels, ensuring that food stays healthy and nutritious.

VITAMIN PLUS™

Vitamins released from this kit help preserve nutrition and vitamins in food. Its anti-oxidant properties preserve up to 70%** more vitamin C than ordinary vegetable boxes, thus delaying the degeneration process.

CELL FRESH CRISPER

Increases relative humidity by more than 20%** compared to conventional crispers, preventing the formation of dew and freezing in the vegetable box. This special latticed-type fruit/vegetable box cover prevents the formation of excessive moisture, thereby preserving freshness and nutritional value of the food.

BIOSHIELD™

Encloses freshness inside and keeps bacteria, mildew and dust particles accumulated in the door seal outside.

FRESHRIZER

Creates a clean and healthy environment by absorbing and disintegrating odours. It helps in retaining the individual taste and smell of stored food items.

CONVENIENCE FEATURES

INTERNAL MICOM PANEL

Get an easy access to temperature control and super freezing with this intelligent digital LED display control panel on the inside of your refrigerator.

CONVERTIBLE BOX[^]

Stores different food at different temperature, maintaining an optimal level of freshness for all kinds of food at the same time, just by adjusting a lever. Also get 70%** more storage space than any other vegetable box.

FREEZE & COOK BOX

Store veg and non-veg food separately in the freezer at the same time, with a single airtight container. This container is not only freezable but also microwavable.

BEAUTY & CARE

Store all your medical and beauty products in a separate corner of your LG Refrigerator.

EGG CUM ICE TRAY[^]

The egg tray doubles as an ice tray for those special occasions when you need some extra ice.

LARGE VEG BASKET WITH SOFT VEG BOX

Stock more vegetables with the Large Veg Basket. And get easy access to frequently used vegetables with the systematically placed Soft Veg Box.

TOUGHENED GLASS SHELVES

The reinforced Toughened Glass Shelves are designed to carry any weight with utmost ease and without any spillage. It can take load as heavy as 175kg**.

DEEP DOOR

Unlike conventional refrigerator doors, LG's Deep Door is crafted in a unique way to provide you with extra storage space.

THE LINE UP OF SUPER COOL, SUPER STYLISH REFRIGERATORS.

OTHER FEATURES

FREEZER LAMP

Allows you to view food items kept in the freezer even when you are in a low-lit room.

FOLDING UTILITY BASKET

The Utility Basket is specially designed to let you adjust its size according to your requirements.

LOW VOLTAGE START ABILITY (LVS)

LG Refrigerators perform optimally even in low voltage conditions. They operate within the range of 135V-290V and can withstand voltage fluctuations.

5 YEARS WARRANTY

The good life just got better as LG now gives you 4 years' extended warranty on the compressor along with the standard 1 year warranty on the refrigerator. Find more reasons to smile with an expert to rely on, time and time again.

LG INTELLO COMPRESSOR

Apart from its conventional role of effectively controlling the refrigeration process, LG's revolutionary Intello Compressor has a better energy efficiency ratio, which lowers the rate of power consumption. Also, these compressors can operate at a voltage as low as 135V and as high as 290V and can also work without a stabilizer.
